# One-Day Adventures Now Available

For Individuals and Groups

Your one-day introduction to sports car racing begins with a 30-minute classroom session, covering basic driving and on-track technique. You'll then be issued a racing helmet and complete five different 30-minute track sessions, behind the wheel of one of our special Corvettes. One of our professional instructors will be in the car with you the entire time.

Between each 30-minute session on the track, you'll have 45-minutes of rest time. During each break, your instructor will discuss your previous performance and offer suggestions for improving your technique, the next time you're behind the wheel.
